Invention: Hand Rest For Fractured Hand
Application No: IN 6173/CHE/2015
Inventor: Adi Kumar, Class 5 student

When Adi suffered a fracture on his hand. He had to wear a cast and a sling to support his fractured arm.

"Wearing the sling for about 16 hours a day along with all the weight of the cast on my left shoulder caused a lot of pain on my shoulder. This is when I thought of putting an appendage around the waist, where it is comfortable and painless," says the 11-year-old.
